ONLINE CHILD WITNESS COURT PREPARATION PROGRAM

The Online Child Witness Court Preparation Program was developed to respond to the needs of child witnesses who may be required to testify in court. Inadequate preparation may result in further trauma to a child and their family and may compromise the court process.

This program represents a collaboration between Alberta Justice and Solicitor General, Victim Programs and the Canadian Child Abuse Association.

Court accompaniment is also available for all children and families wanting support on the day(s) of the court proceedings. We can direct you to your Victim Assistance Unit if court is not in Calgary.

The Child Witness Court Preparation Program is structured to ensure the non-contamination of evidence. There is no disclosure or discussion of the child's individual circumstances.
